# PLACES TO VISIT IN DELHI

## About Delhi

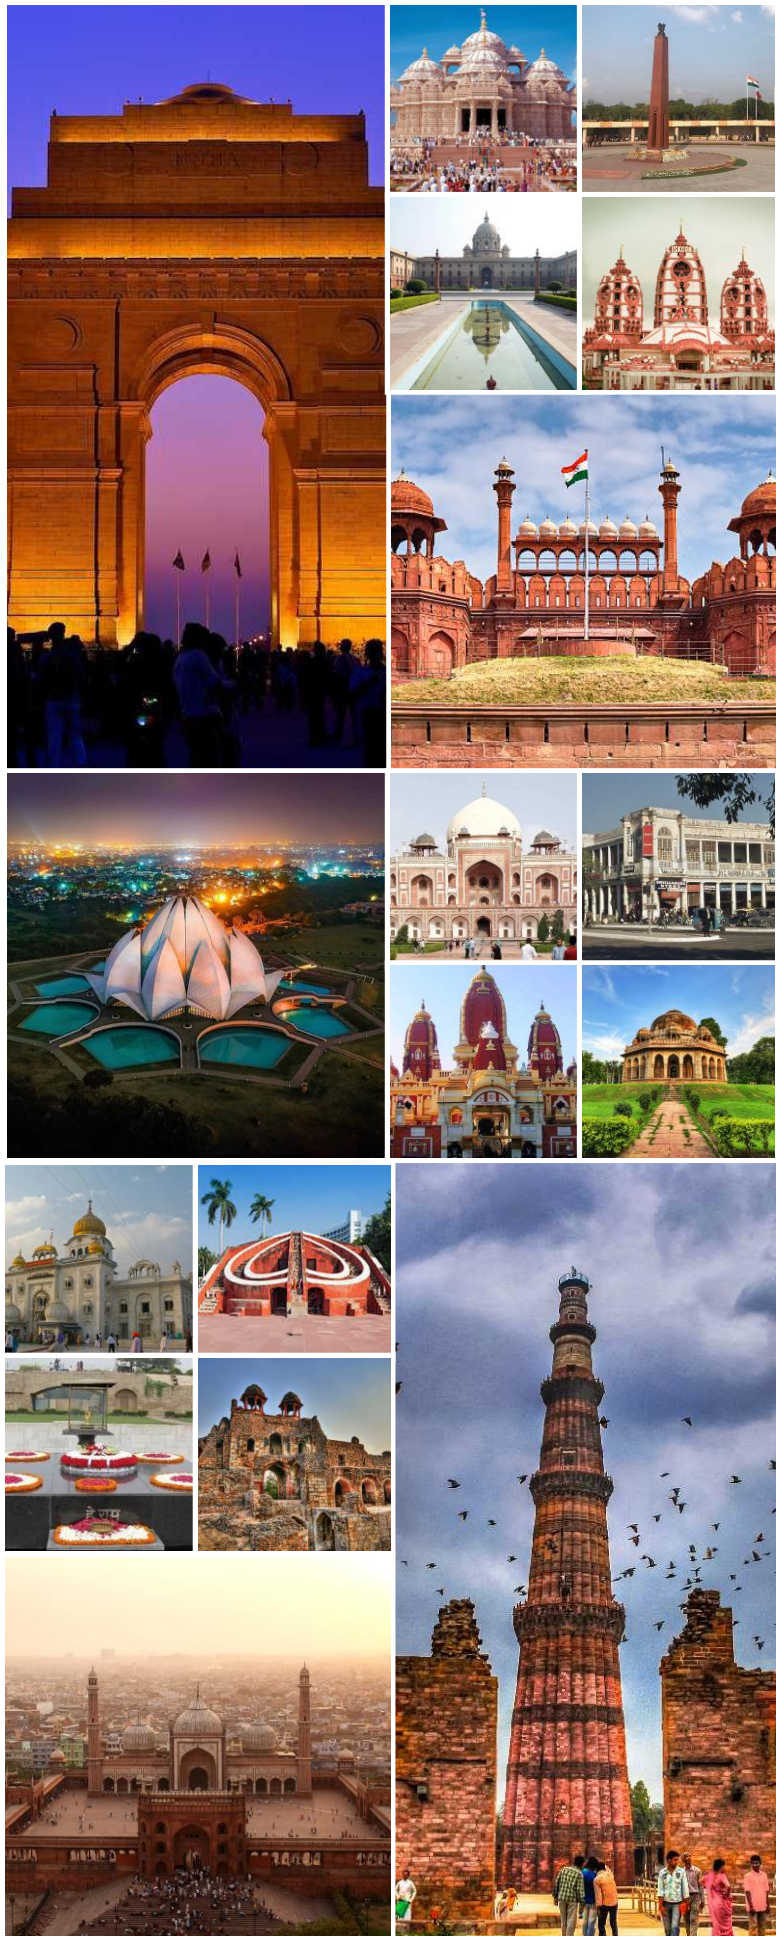

The capital of India, the “Dilwallon ka Shehr”, the heart of India, Delhi is the centre of all! Delhi is the centre of education, politics, tourism, health, fashion, transport and many more. Delhi is a place of culture, festivals, traditions, history and present, cuisine, bazaars, museums, monuments and people. It is the second most populous city after Mumbai in India and the fourth largest city in the world.

Delhi is a blend of the past and the contemporary. Delhi is a composition of two parts- Old Delhi and New Delhi. While Old Delhi, the capital of Islamic India, gives a look of narrow lanes and old buildings, New Delhi, a creation of the British, is a spacious place with impressive buildings.

Delhi, city and national capital territory, north-central India. The city of Delhi actually consists of two components: Old Delhi, in the north, the historic city; and New Delhi, in the south, since 1947 the capital of India, built in the first part of the 20th century as the capital of British India.

One of the country’s largest urban agglomerations, Delhi sits astride (but primarily on the west bank of) the Yamuna River, a tributary of the Ganges (Ganga) River, about 100 miles (160 km) south of the Himalayas. The national capital territory embraces Old and New Delhi and the surrounding metropolitan region, as well as adjacent rural areas. To the east the territory is bounded by the state of Uttar Pradesh, and to the north, west, and south it is bounded by the state of Haryana.

Delhi is of great historical significance as an important commercial, transport, and cultural hub, as well as the political centre of India. According to legend, the city was named for Raja Dhilu, a king who reigned in the region in the 1st century BCE. The names by which the city has been known—including Delhi, Dehli, Dilli, and Dhilli, among others—likely are corruptions of his name.

Rishikesh is a city in India's northern state of Uttarakhand, in the Himalayan foothills beside the Ganges River. The river is considered holy, and the city is renowned as a center for studying yoga and meditation. Temples and ashrams (centers for spiritual studies) line the eastern bank around Swarg Ashram, a traffic-free, alcohol-free and vegetarian enclave upstream from Rishikesh town.

## JAIPUR - THE PINK CITY

Jaipur is the capital of India's Rajasthan state. It evokes the royal family that once ruled the region and that, in 1727, founded what is now called the Old City, or "Pink City" for its trademark building color. At the center of its stately street grid (notable in India) stands the opulent, colonnaded City Palace complex. With gardens, courtyards and museums, part of it is still a royal residence.

## MUSSOORIE - THE QUEEN OF HILLS

Mussoorie, also known as Queen of the Hills, is among the most popular hill stations of the country. A Britisher, Captain Frederick Young, accompanied by an official named FJ Shore, had climbed up the hill from the Doon valley in 1827 and found this ridge offering great views and a salubrious climate. This visit laid the foundation for this grand hill station.
